COMPUTER SCIENCE - CYBER SECURITY - ENGINEER

(+39) 3342949528 | Christian.Romeo3@gmail.com | linkedin.com/in/ilchris21 | Milan, IT | 21/12/1999

Summary

Currently, I'm specializing with a **Double Master Degree** in Computer Science with a focus on Cyber Security through **EIT Digital** which granted me a scholarship. As a STEM student I'm always curious and looking for something **new to learn** in order to give to others. I'm interested in devising a better problem-solving method for **challenging tasks** and learning innovative technologies and tools. I strongly believe in **personal growth**, and I consider myself an open minded, creative, **fast learner** citizen of the world willing to challenge my own beliefs and always ready to push myself **further**. As I wrap up my studies, I'm seeking an engaging **company to host my** upcoming cybersecurity **Master's thesis project**.

Education

MSc in Computer Science - University of Twente(+Delft) & EURECOM

Enschede, NL & Sophia Antipolis, FR

MAJOR TOPICS

Sept. 2022 – July. 2024

- **System Sec.**, **Blockchain** and Distr. Ledger Technology, **Business Dev. Lab**, Internet Sec., **Software Sec.**, Computer **Ethics**, **Software Testing & Reverse Eng.**, **Privacy-Enhancing Technologies**, Security and **Cryptography**, Cyber Risk Management, **Mobile Systems** and Smartphone Security, **Distributed Systems** and Cloud Computing, Mobile Application and Services.

BSc in Computer Science and Engineering - Politecnico di Milano

Milan, Italy

MAJOR TOPICS

Sept. 2018 – Mar. 2022

- Foundational and Advanced topics in Computer **Architectures**, Operating Sys., Algorithms and Data **Structures**, Software Eng., Information Sys., Fundamentals of: Automatic Controls, Electronics, Probability & Statistic, Economics, Bioinformatics, besides **STEM** classes.

Experiences

Ernst & Young

Milan, Italy

FSO CYBER SECURITY CONSULTANT INTERN

Dec. 2021 – August 2022

- PMO and analysis activities regarding **cyber enhancement**, internal architecture improvement, and feasibility of proposed **Global SOC** implementation projects for an international **financial** client.

KPMG

Milan, Italy

INFORMATION RISK MANAGEMENT CONSULTANT INTERN

Sept. 2021 – Nov. 2021

- Provided support to **Audit**, **Compliance**, and Cyber security teams in matters of **privacy**, IT **risk assessment** controls, VAPT's, OSINT's, phishing campaigns, due diligences, and code analysis.

Reply - STUDENT AMBASSADOR

Feb. 2020 - present

Mapp Digital - MARKETING ANALYST INTERN

May. 2017 - Jun. 2017

Projects

Masters of Renaissance

Milan, Italy

A JAVA IMPLEMENTATION OF A TABLE GAME

Mar. 2021 - Jun. 2021

- Designed and **developed** a distributed **multiplayer game** following MVC approach, design patterns, unit tests, networking, and **multithreading** principles as part of a 3-person **team project** for the final examination in Software Engineering class.

edU

Milan, Italy

FREELY INSPIRED BY THE ed EDITOR + UNDO & REDO FEATURES

Aug. 2020 - Sept. 2020

- As part of the final examination for Algorithms and Data Structure class, developed a program in C11 that offers line insertion, deletion, modification, printing and **unlimited** undoes and redoes operations with a focus on **memory** and **time efficiency**.

Route Your Way

Milan, Italy

A NEW AND INNOVATIVE WAY OF SHOPPING

Dec. 2017 - Jul. 2018

- Developed a **prototype** supermarket products pathfinder app using Unity, C#, SQL, PHP, and Blender, including user registration with encrypted credentials and a custom 3D supermarket map for the **High School State Examination personal project**.

Skills

- Knowledge areas

- **Cybersecurity** & Cryptography Fundamentals **Tools and Techniques**, **Data** Management, **Networking** Security & Architecture, **Software** Development, **Computer Science** & Engineering, **Compliance** & Standards;
- **Innovation Frameworks** for Strategy, Analysis & Design Thinking, **Entrepreneurship** Management, Planning & Prototyping, **PMO** and Audit fundamentals.

- Professional skills

- **Communication**: Technical writing, documentation, presentations, stakeholder collaboration;
- **Teamwork**: Cross-functional collaboration, agile methodologies, group brainstorming;
- **Problem-solving**: Debugging, troubleshooting, risk analysis, prototyping, quick learning;
- **Analytical Skills**: Requirements analysis, solution design, evaluating alternatives.

- Certificates & experiences

- **Cisco** Networking Academy - IT Essentials; • **Google** IT support Specialist;
- **ECIU** - Intercultural Competences Guiding practical insights through Citizen Science; • **KPMG (NL)** – Cyber Business Course in London (UK); • **EIT Summer school & Imaguru** - Boosting Entrepreneurship & Digital Wellbeing in Vilnius (LT)

- Languages

- Italian: **Native** speaker; • English: **Proficient**, IELTS 7.5 – C1 score awarded by British Council (Jan. 2022)
- French: **Basic** knowledge; • German: **Basic** knowledge.
